Acknowledgment

We Wish to record the grateful appreciation of Director Sir, Principal Sir, Chief Administrative, Coordinators & ACR Team, Teachers and Students for their continuous and untiring help, encouragement, support and guidance to sketch out such a great collection of the event by our wonderful students in the form of “SANCHITA 2022-23”

The Editorial Team extends its gratefulness towards all those who had contributed in compiling this magazine.

From The Director's Desk

“Education is the all drawing out of the best in child and man- body, mind and spirit” - Mahatma Gandhi

Values - A Positive Approach The minds of children, contrary to our beliefs, are open. Friendships are formed on face values without any expectations. It becomes the responsibility of the school to ensure that all children put under its care are taught the importance of inculcating right ethics. These are urgent in order to develop as an individual, both mentally and emotionally. With us, the students learn to be upright and honest, they understand respect, they are taught to differentiate right from wrong and have the courage to stand up for what is correct.

Dream and Reach For the Stars

A word of advice to our students - the school takes on the responsibility of nurturing children and helps open their minds to the wonders of life. All of you are special and we want you to take pride in achievement. Each job is a self portrait of the person who does it, autograph your work with excellence.

At the end I would like to thank all the parents who have reposed faith in our institution and the ideals it stands for. Let me assure you that your loved ones are in safe hands. Our staff understands the ethos of the school and help in guiding and encouraging the children and I am sure that the children will make both you and us proud.

“Challenges come to check us” If we face them positively & bravely, they make us but if we don't face or surrender before them, they can break us too. Hence we must welcome every challenge of our life, as they come to make us not to break. I am really found myself privileged and proud to be a part of this prestigious school i.e. **CENTRAL ACADEMY SCHOOL, GWALIOR**

It is one of the oldest and most reputed CBSE private school of Gwalior city. CAS (Central Academy School) is known for its quality education & values that reflects in it's students. The school has consistently been performing very well for last 25 years. Though in past few years every school has been suffered a lot due to the deadliest pandemic i.e. Covid-19. Our school has also not been untouched with it. But with kind and consistent support of parents & untried, dedicated efforts of school staff, we were able to face it & even overcome it successfully Yes, past 2 years phase has been the toughest challenge for us, specially in terms of provding uninterrupted, continuous classes (teaching) for it's students. For this school didn't waste any time & took few quick decisions like, preparations of single seater furniture for all it's students, purchasing good quality mobile phones along with mobile stand for smooth & uninterrupted online classes, making school campus completely Wi-Fi, marking circles on ground to maintain social distance while moving, sanitizing tray in front of each classroom to sanitize shoes, thermal scanning to note the temperature of everyone, creating number of washing points to frequent hand wash etc. I feel proud to share that we were the first school in the city which was fully ready to provide the offline classes to it's students from the very next day after governments instructions. All these things made us capable to provide our students continuous online /offline classes as per the government's instructions & guidelines. Nothing is the best, school always believe in betterment. There is always a scope of improvement in every work & conditions and we are committed for that. School has also made one important announcement through principal's speech during virtual Annual function - 2021 that from next session i.e. 2022-23 onwards, school will provide Free Tuition Classes to it's I to VIII students for which parents have to fill the required form to avail these classes at free of cost. Hence, next session onward no parents have to send their ward for tuition /coaching classes specially in I to VIII classes. I assure you that such kind of innovative steps, will always be taken in the favour of students & parents. I also promise that school will not leave any stone unturned to fulfill the expectation of it's parents. The only thing that school requires expects from you' is your prompt response to the school's messages & instructions and your consistent support along with precious suggestion to take this institute to the next level.

Thank you,

Mr. Arvind Singh Jadon

From The Chief Administrative Officer Desk

" Good efforts of good people always give success.

All you need is confidence ."

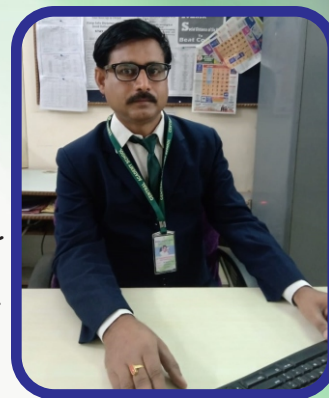

Central Academy School Adityapuram Gwalior has completed its successful 25 years on the strength of hard work, sincere dedication and full self-confidence coupled with its continuous efforts. Contributing to the welfare of the society, this institution has achieved a place in the education world. I am extremely proud to be a part of this organization.

Creating new dimensions in the education world, this institution has not only become a well-known name in the Gwalior region but has become synonymous with education. Our organization has also got the distinction of being the first institution to follow corona behavior and provide education to students and girl students by providing protection from corona, while providing their uninterrupted and quality services in difficult circumstances like covid-19. In Offline classes and online classes our entire team is diligently engaged in performing their duty with utmost sincerity and providing their best to the kids. Our entire team feels proud to be associated with this organization and our organization also feels proud of its team. The school has been able to establish itself only on the strength of the immense love and cooperation of the people of the area. Therefore, the school management will always be indebted to him and will respect all his suggestions. I am very happy to be associated with this organization and the positive atmosphere here infuses new energy in me. The generosity of the management and the love of the parents always motivates me to work here. I get real pleasure in solving all the problems of parents and students quickly. I myself and my entire team express my heartfelt gratitude to all the students and parents for their cooperation and love. Our organization is always committed to provide quality education and always welcomes all good suggestions. I will always be indebted to the management of the institution which provided me an opportunity to serve here and connect with the parents and students. I am always committed to solve the problems of students and parents. The love of the students inspires me, the support of the parents gives me energy and the positivity of the management gives me self confidence and with this confidence, while working in the interest of the institution, I will continue to serve all the parents and students. This is my wish.

From the Coordinator's Desk

I have great pleasure in conveying my best wishes for releasing the School magazine which brings the students and teachers of various disciplines on a common platform to share and display their ideas and creative talents. There is something for everyone here. The variety and creativity of the articles in the magazine pages represent the talents of students and teachers.

I congratulate the entire team for their hard work and dedication for making this magazine. The reflection of the students' and teachers creativity is the epitome of the magazine. I am sure that the positive attitude, hard work, sustained efforts and innovative ideas exhibited by our young children will surely leave good impact on its reader.

With best wishes.

Flowers leave part of their fragrance in the hand that bestows them."

"Flowers leave part of their fragrance in the hand that bestows them." The mind is not a vessel to be filled but a fire to be kindled. I appreciate the staff and students of all faculties who use various modes of expansion to present their ideas. As long as our ideas are expressed and thoughts kindled, we can be sure of learning as everything begins with an idea. Just as our mother earth gives us more and more, Learning is not a process limited to schools and colleges only, nor does it end with the conclusion of one's school career. It is indeed a lifelong process. The school is oriented to the total formation of a child and to adaptations of various methods suiting the dynamics of changing world in order to achieve common goals and objectives. It is further characterized by sharing vision, responsibility and above all love and faith in goal in order to achieve it. We live today in a world that is very different from the one we grew up, in the one we were educated in. The world today is changing at such an accelerated rate where we as educators need to pause and reflect on this entire system of education. Our school is well equipped to prepare our children to face the challenges that the future holds and work at implementing a well-balanced curriculum to ensure that the children who walk into the portals of CAS will not just leave their school years but truly be prepared to face life's challenges. Even as we impart education to match the advancement in technology and globalization, we march our children ahead with ethos of moral values and principles. We endeavor constantly to instill these qualities in our children. We pride ourselves to help them grow and develop into sensitive and responsible citizens of the future. Aristotle once said that, "Educating the mind without educating the heart is no education at all".

The journey of a thousand miles starts with just a single step, the graph that shows rapid development starts with just a single dot and the huge trees that stands tall begins with just a seed so does a dream manifest itself into laudable action . I firmly believe that my task is tough yet with faith, steadfastness and support my journey will become easier.

I am thankful to my principal sir and director sir who constantly supports me, I am thankful to our school management department that actually manages smoothly. I am thankful to entire Central academy school team; which manages all the affairs of our school in such a smooth manner at every time. Any time we have any kind of problem that always cooperate with me I promise to be honest and determine to be truthful in thought, word and deed. I intend to cooperate with everyone in school for the proper growth of children whose responsibility we have been entrusted with, to be prudent in the discussion we make, the issues we choose to fight for and the responsibilities we accept. We respectfully ask for blessings as we march on the face the challenges that ever new day might bring.

Editorial Desk

The magazine is to be viewed as a launch pad for the children's creative urges to blossom naturally. As the saying goes, mind like parachute works best when opened. This humble initiative is to set the budding minds free allowing them to roam free in the realm of imagination and experience to create a world of beauty in words.

I am thankful to all my colleagues who dipped their oars into the turbulent water of the journal and have sailed it to the shore of publication. It is a fine thing to have ability but the ability to discover ability in others is the true test. I am really thankful to our respected Principal sir for entrusting us with the responsibility of editing. I take this opportunity to thank all the dignitaries for sparing their valuable time to send their best wishes for the magazine in the form of 'Messages'. I heartily wish all the readers my best wishes and hope this souvenir will enjoy your critical acclaim and prove itself to play a vital role in the all-round development of the children.

INDIA

India is a country where people of different religion live. They have different culture, rituals, dresses. I think this is the reason why Indian culture is unique.

India is different from other countries. Here no one is forced to change their religion. Taj Mahal is one of the seven wonders of the world which is situated in Agra India is also famous for its spices. It is also famous for its monuments.

J & K is known as the 'Heaven of India'. There is a path from Kerela to Sri lanka. Which is made of stone floating in sea which is a big mystery in itself. In Gujrat, the 'statue of unity' is situated the world's highest statue which gets added to the pride of India.

India also gives zero to the world which is the biggest achievement in the field of maths. India and its culture is unique in the world.

LIFE IN COVID-19

In the year 2019, the covid-19 virus infected all the countries in the world. The virus paused all the people's life all over the world. Countries announced lockdown in order to prevent the virus. It affected a lot of people's life, specially the working people. The sudden pause in the work affected the economy of the country. People migrated from the big cities to their towns in order to earn some earning. This effected the life's of students too, the important exams were cancelled students had to adapt the online learning classes. One of the biggest change was to wear Mask. It was difficult considering the fact, people were wearing it for first time and they have to wear it in the future. But despite all the difficulties, restrictions, the sudden pause of the world, People passed this difficult phase.

The world is resuming again, going to the same position it was before covid. As much disadvantages it caused it caused in every one's life, it has a positive outcome too. For the Environment, it proved to be a great time. People were able to spend time with each other in this phase which they are not able to do in the fast world.

Every side has a positive and negative outcome. Covid was ne the example of it.

Importance of Discipline

Importance of discipline in school life is very important for students. We can't be well educated without discipline. Without learning & following discipline in school life can cost student later in their carrier in school education. Discipline is a set of rules and regulation that remind us of he proper code of behavior. Discipline is ever more important during school life.

But discipline is not only important for school's student its for everyone. Discipline is self improvement practice. It is what helps us all to achieve our goals in life.

See a successful business owener, a popular leader and you will find that he/she is well disciplined. Disciplined founders and leaders have higher business intelligence and strong analytical skill. Because they practiced their Business growth strategies consistently and with focus.

That's why discipline is really important.

When student are aligned to the purpose then the future of the country will be great.

Relation of Teacher & Student

Every day you greet your students with a smile upon your face

Money is not your motivation, it's the love for what you do.

You hear that special calling to which you always will stay true.

Your students are your dedication, devotion.

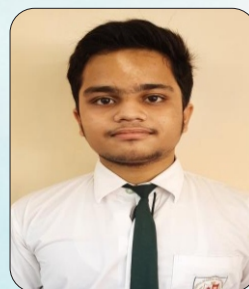

For you each child is unique and special, a beautiful little gem.

Some day are just demanding and frustration takes its course

Then you see these little faces, their inspiration is your force.

Everyday you're in your classroom remind you where you're there making difference in children's lives with whom your heart you share.

There's a special pride in teachers, and a love for what you do and appreciation's always shared between those little lives and you.

The tree inside are moving old into the forest.
The forest that was empty all these days.
Where no bird could sit.
No impact hide
No sun bury its feet in shadow
The forest that was empty all these nights will be
full of trees by morning.

All night the roots work
To disengage themselves from the cracks in the
veranda floor
The leaves strain toward the glass
Small twigs stiff with exertion.
Long – cramped boughs shuffling under the roof.
Like newly discharged patients.
Half – dazed moving.
To the clinic doors.
I sit inside, doors open to the veranda writing long
letters.
In which I scarcely mention the departure of the
forest from the house.
The night is fresh. The whole moon shines.
In a sky still open.

HISTORY OF THE PAPER

In the central Islamic lands, written works widely circulated after the introduction of paper. Paper (made from lines) came from china, where the manufacturing process was a closely guarded secant. In 751 the musing governor of Samarqand took 20000 Chinese invaders as personas some of them were good at making paper. For the next 100 years. So Samargand paper remained an important export item. since Islam prohibited monopolies, paper began to be manufactured in the rest of the Islamile world. By the middle of 10th century, it had more or less replaced papyjumus the writing material made become the inner stem of a plant that grew fuccely in the Nile valley, Demand for paper increased. And Abd-al-Latif doctor of from Baghdad and a resident of Egypt between 1193 and 1207 repeated how Egyptian peasants robbed graves to obtain mummy verappings made of Eigen to sell to paper factories.

POEM LIFE OF A PLANT

A plant will grow from a thin seed,
Some water and sun is all you need.

First the Roots grown underground,
They suck up minerals from all around.

They come stems, Some tall. Some stout,
And next the branches Spread about .

Leaves grow in all shapes and sizes,
Watch this new life as it rises.

Flowers bloom from buds on Stems,
They are as pretty as precious grins.
Some plants give us juicy fruit,
Some have vegetables at the Root.

New Seeds travel to and fro,
by wind and water, on the go.

And the cycle keeps on going,
Soon new stems and leaves are showing.

You're got to think high to rise...
You've got to be sure of yourself before...

“WATER SHORTAGE - IS THERE NO SOLUTION?”

Every year, in summer, our whole country face water shortage. The newspaper are full of pictures of women with pots walking miles in search of water. One also sees pictures of woman around a tap, with empty bucket lined up, waiting patiently for their turn. The big town & cities suffer from water shortage throughout the year. Housewives are accustomed for filling up water as the supply is only for an hour in a day.

Why is this so? The main reason is of course the ever increasing population of our country. We are multiplying at such an alarming rate. Housing colonies, High-rise buildings are being constructed in every city, without any thought that how water or electricity would be provided. In cities, water is wasted and it is a crime. In school everyone should be aware of the importance of not wasting even a drop of water.

SAVE WATER SAVE LIFE

All plants and animals need water to survive. There can be no life on earth without water. Why is water so important? Because 60 percent of our body weight is made up of water. Our bodies use water in the cells, organs, and tissues, to help regulate body temperature and maintain other bodily functions. Because our bodies lose water through breathing, Sweating and digestion it's crucial to rehydrate and replace water by drinking fluids and eating foods that contain water.

We need to save water for our present and also for our future. Water, a precious liquid, we need to identify the quality of that precious liquid. Only Earth have sufficient amount of water to survive.

Water and its Importance

Natural created water, soil and air. These three things are critical for humans, animal and plant life on our planet. Water is one of the three important things above, why is water important?

Beside daily nutrition, humans, animals and plants on our planet need water for supporting their life such as drinking watering the crops and washing cloths and body etc. Water not only for humans and animals to drink or use, but it's also a shelter for a variety of fish and irrigation to the agricultural industry as a source of nutrition for humanity, Water is also a natural source of creating the hydrogen for human, animals and plants, and it also contribute to the reduction of heat on earth. When people make water dirty through the drain waste containing chemical toxins or various waste disposal into the water, it will losing resources of fish, and we also cannot use this water for drinking or cultivated crops or whatever because of water pollution, the people will lose their major source of nutrition, finally people will die from lack of clean water.

In summary, the water is so important for human beings, animals and plants because it is for humans and animals to drink and water as well as fish habitat and use for agriculture field as a source of human food. Therefore, all of us must prevent the water pollution together, because if you pollute the water it means you are killing yourself.

Environment Pollution

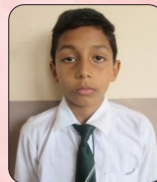

Environment pollution means pollution which is degrading the environment. Pollution is increasing day to day and so global warming is also increasing. Due to environment pollution, there is an imbalance in nature so many birds, animals and plants are on the verge of extinction day by day. The only way we can get rid of environment pollution is to plant more and more trees. We all dream of a beautiful home, our nation to dream of a beautiful environment.

Where go to Boats

Dark brown is the river
Golden is the sand
It flows along forever
With trees on either hand
Green leaves a floating
Castles of the foam
Boats of mine a Boating
On goes the river
And out past the mill
Away down the valley
Away down the hill
Away down the river
A hundred miles or more
Other little children
Shall bring my boats ashore.

DETECTION OF WEAK CURRENT THROUGH LIQUID

The current flowing in a circuit is usually detected by using a small electric bulb (Such as torch bulb) when an electric current flows through a bulb thin due to heating to a high temperature, Become white hot and glows to produce light. When the current flowing through a circuit is small, the heating effect is also small, due to which the bulb glows dimly.

If, however the current flowing through the circuit is too weak, then the heating effect produced by current in the filament is too little, due to which the filament does not get heated sufficiently and hence the bulb does not glow at all the current in the circuit may be weak if the electrical Conductivity of the liquid we are testing is very low, electrical conductivity of the liquid by using a torch bulb in the circuit, then the bulb may not glow at all.

Covid – 19 EFFECT ON STUDENT LIFE

During this corona virus time students have advantages and disadvantages. I was Initially happy about the virus because there was a lockdown all over India, there were no schools and colleges. At once, an instant of time, I thought there was no movie for me to watch. waiting for unlocking situation to meet friends and friends and relative. Describing the few of the advantages and disadvantages during the during the covid - 19 Pandemic.

Advantages

1. Students can use their quality time in studying and the other activities in which they are interested. Spent time in the house by not going out and enjoy witch movies and do some craft work.
 2. Saving time to avoid transportation time, prayer, , sports, chatting with friends spending five to six hours of the quality time for the online classes. Wheezes in s School, spent 10 hours. Getting more time for the self-study if we use in the proper very to avoid watching movies and playing mobile games.
- Disadvantages online classes the ostentation rate is around 50-60 where as in the classroom the adaptation was around 80-90% online classes affect the eye of the student due to long hours in front of the blue screen Small children like the play school and primary grades must not have this type of class because they have low concentration power and these small kids do not have the ability to sit far longer time in front of a the blue screen"

These factors are going to be a fore shad law to the chilse further life on this note want to Say that students are missing the days in the School and colleges Hoping the goverment take good decision on education with clear instruction as early as possible to avoid the situation that occurred by cavid 19 Pandemic.

THINGS WE FEEL STRONGLY ABOUT

Why are our cities so dirty? Why can't we be like Singapore or Belgium or Switzerland? One feels this even more strongly when one travels abroad one can't help but compare with other countries.

If only we Indians did not spit on the roads, footpaths, lanes, street corners, from our flashy cars, from our balconies! It only we Indians did not litter the earth with plastic cups, coke bottles, Plastic bags, chips packets, half eaten applies. Then one feels angry with the government why can't we have stricter rules and fines imposed on those who dirty our town, cities and villages?

Many times, rules have been made ban on plastic Bags” The first week goes off time, after that we are back to using plastics with a vengeance no one sees to it that rules once made must not be broken . Why can't rules be made for shop owners to see to it that the space in front of their shop is kept clean. If not fine them, it they still do not obey take away their licenses. Spot fines are the need of the day.

Above all, we Indians must each do our past and not throw the box of half eaten pastries on the road from our car windows, we must not throw even a toffee wrapper on the road, keep it with us and throw it in the waste paper basket at home. We must have a civic sense. Come on, think seriously about it keep Indian clean!

So, one should be ready for all these things. One can face life and its problems with a plan. Without a plan, life would be difficult to lead

I want to become a teacher. The question is why so. There are many other professions One can be a doctor, earning a lot of rupees daily. One can be an engineer, getting thousands of rupees as salary. One can be a shop. keeper earning lots of profits. One can also be a trader, selling things and earning lots of profits. Why then a teacher?

I want to become a teacher because I love this profession. Not only that I love it, but also for its greatness. I know teachers in our country are low-paid. I also know that people don't think this profession as a great one. They think that teachers are merely teachers, with no high status in life.

I admit, teachers are not given proper status in our society. But, all the same, I like this profession. I think teaching is the highest job to do. It is because teachers bring light of knowledge in the lives of the people. They take them out of ignorance. They teach them good values.

This is what I think, I believe In my opinion, a poor literate man is better than an illiterate rich man. So, that is why I want to be a teacher. This is my aim in life.

ARTIFICIAL INTELLIGENCE BENEFITS & POTENTIAL

Already. Ai has helped increase crop yields, raised business productivity improved access to credit & made cancer detection faster & more precise.

Ai can leapfrog us towards eradicating hunger, poverty & disease – opening up new & hitherto, unimaginable pathways for climate change mitigation, education & scientific discovery.

It could contribute more than \$ 15 trillion to the world economy by 2030 adding 41% to global GDP. Google has identified over 2600 use cases of 'Ai for good' worldwide.

A study published in Nature reviewing the impact of Ai on the sustainable Development goals [SDGs] finds that Ai may act as an enabler on 134 - or 79% - of all SDG targets.

Concerns & targets

- 1 The study in nature also finds that Ai can actively hinder 59 - or 35% - of SDG target. For starters, Ai requires Massive computational capacity which means more power hungry data centres & a big carbon footprint .
- 2 Ai could compound digital exclusion. Robotics & Ai companies are building intelligent machines that perform tasks typically carried out by low - income workers : say – service Kiosk to replace cashiers, fruit picking robots to replace field workers etc.
- 3 Many desk jobs will also be edged out by Ai, such as accountants, financial leaders & middle managers.

Better opportunities for female due to technology led work.

Ai also presents serious data privacy concerns.

Way Ahead

Only a 'Whole of society' approach to Ai governance will enable us to develop broad – based ethical principles, cultures & codes of conduct.

Given the Global reach of Ai, such a 'whole of society' approach must rest on a whole of world' approach need for multi stakeholder efforts on global co-operation So Ai is used In a manner that is ' trustworthy' human rights based safe & sustainable & promotes peace.

Digital future cannot be optimized for good without multi –stakeholder governance structures that ensure the dividends are fair, inclusive & just.

Introduction –

Lockdowns have led to a boom in internet consumption . it has helped us understand the potential of technologies such as Artificial Intelligence (AI) & machine learning (ML) COVID-19 has created an AI moment that India cannot afford to miss.

VALUE OF EDUCATION

- Education means learning or studying existing knowledge and cultural heritage.
- Human beings have achieved a lot from the start, and it would be unfortunate to lose all these achievements.
- Our behavior, our perception is what we have learned, either by getting instructions or by observing things around us.
- We can split the education system into three types that are formal, informal and non-formal education.

Value of Time

Every Moment we passed in our life is very important as whether we like it or not, it is directly affected our journey of our life. Our journey is very important as we have to fulfill the mission of our life but time of our final journey is not in our hand & as such we have to valued our time as a very basic essence of our life.

When our life is very important we have to given the shape of our life by keeping the mission for our journey for which we have to make & very honest approach with sincerity with moral codes & ethics so that we may make our life worthy for carrying out our action in a right manner whether it is our working environment, our family responsibility with all the attachment & Love with our social fabrics & responsibility.

As we have given the shape to our life as we have realize the importance & value of the same we are to consider as a mission for our life. We are also aware that whatever the action we take in our life we are certainly to receive resulting fruit of the same with positive & negative which remain as a part of our destiny.

In our action of life our destiny plays an very important part for our working action we may not receive the accepted result. Besides why carrying out the responsibility of our working assignment suddenly unexpected health problems or family disturbance result in between which will term as a part of our luck.

My first day at college

College is dreamland of every students education carrer It is beautiful period of enjoyment, freedom and friendship.

“colleges are places when pebbles are polished and diamonds are dimmed.”

College life has its oon charm and beauty. Each and every moment spent there is always worth living enjoying and remembering.

At last the result of matriculation examination was declared and I came out with flying colors. After I passed my school examination with good marks, many excited and healed discussions took place on the choice of subjects and college which was the biggest college of my city. I had heard a lot of stories about colleges life from my elder sibling and relatives. According to them college is not as strict as school . I was full of excitement, inner joy and high hopes for a promising future.

On the very first day. I got up early in the morning as I was much excited for the college life I offered dawn prayer and took a hearty bath and gat ready for the college. As soon as I stepped into the college. I felt like I have entered into the college, it was indeed a completely new world for me. The college had a one side a wonderful building like a palace, lovely playgrounds and devoted professors. When I reached the gate of the collage were standing there, some of them where in a jolly mood and wanted to befool the comers. They asked us to do strange things like singing ridiculers songs during monkey pranks. The sense of self – respect didn't allow me to act according to their wishes. Still they forced me to obey their orders.

Mean while , a senior professor of the college came to our rescues. He asked the boys to assemble in the hall. were the principal address the students and advised them not to take part in politics at college. They should pay full attention to their studies and try their best to achieve the goal.

We play football in ground and discuss whole day scenario. I was came back to home and just thank abrt whale day scenario life. College life is the most memorable life.

सब देशो से लगता प्यारा
इसमें हमने जन्म लिया है
यह सौभाग्य हमारा है।

उत्तर में है खड़ा हिमालय
यह पर्वतराज हमारा है
भारत के हम गुण गाएँगे
यह रणर्णम देश हमारा है।

इसके चरणो को सागर धोता
कभी हमारा बुरा न होता
गंगा की बहती पावन धारा भारत कभी किसी से हारा
यहाँ के खेतों में हरियाली
देश में लाती है खुशहाली

हम देश को और आगे बढ़ाएंगे

फुटबॉल – विश्व प्रसिद्ध खेल

फुटबॉल इस आधुनिक युग में भी विश्व का सबसे प्रसिद्ध खेल है।
यह बहुत ही रोमांचकारी और चुनौतीपूर्ण खेल है।
फुटबॉल मैदान में दो टीमों के खिलाड़ियों द्वारा खेला जाने वाला आउटडोर खेल है।
दोनों फुटबॉल टीमों में 11-11 खिलाड़ी होते हैं।
अधिकतम गोल बनाने वाली टीम विजेता होती है।
इस खेल की अन्तर्राष्ट्रीय प्रतियोगिता 90 मिनट की होती है, जो 45-45 मिनट के दो भागों में विभाजित होती है।
फुटबॉल खेल एक अच्छा शारीरिक व्यायाम है।
यह बच्चों और युवाओं के साथ ही अन्य आयु वर्ग के लोगों के लिए भी विभिन्न लाभ प्रदान करता है।
यह विद्यार्थियों के कौशल, एकाग्रता स्तर और स्मरण शक्ति को सुधारने में मदद करता है।

मोबाईल फोन

आज के दौर में विज्ञान बहुत विकसित हो चुका है। विज्ञान ने हर क्षेत्र में काम आसान बना दिया है। विज्ञान ने कइ अविशकार किए है। जिनमें सबसे ज्यादा प्रयोग किया जाने वाला अविशकार है मोबाईल फोन। आज के समय में देखा जाए तो हर दूसरा व्यक्ति इसका प्रयोग कर रहा है मोबाईल फोन में कई कार्यों को काफी आसन बना दिया है आज के दौर में यदि किसी के पास फोन है तो वह किसी भी कार्य को सरलता से कर सकता है।

मोबाईल फोन के कई लाभ है। इसके द्वारा हम घर बैठे बिजली पानी दूध सबके बिल भर सकते है यदि हमें अपने किसी भी मित्र या परिवार के सदस्य से बात करनी हो तो हम उससे विडियों कॉल या कॉल पर बार कर सकते है। फिर चाहे या कॉल कितनी भी दूर हो। कोरोना काल में भी इसके कितने काफी फायदे रहे है। कोरोना काल में मोबाईल फोन द्वारा ऑनलाईन कक्षा की गई जिससे बच्चों की पढ़ाई खराब न हो विद्यार्थी चाहे तो वे मोबाईल द्वारा अपनी पढ़ाई कर सकते है। आज हम घर बैठे मोबाईल द्वारा देा के किसी भी कोने की खबर रख सकते है।

मोबाईल के लाभ के साथ-साथ इसके कई हानियाँ भी है विद्यार्थी इसका गलत उपयोग कर रहे है। वे पढ़ाई की जगह दिन भर गेम खेलते है वे सारा दिन फोन में रहते है जिससे वे अपने दोस्तों व परिवार दूर होते जा रहे है सारा दिन फोन में लगे रहने से उनके दिमाग व आँखों पर कॉफी असर हो रहा है इसलिए उन्हें फोन का उतना ही प्रयोग करना चाहिए जितनी आवश्यकता हो।

वक्त का पहिया

वक्त का पहिया ना कभी किसी के लिए रुका और
न कभी रुकेगा। हर काम वक्त के साथ और उसके

हिसाब से ही होना चाहिए अगर कोई भी काम वक्त
के बाद हो तो उस काम का कोई महत्व नहीं होता है।
आज कल लोग अपना कार्य हमेशा वक्त पर टाल देते है
और कहते हैं क अभी तो बहुत समय बचा है पर जब समय
निल जाता तब उनके पास में लोग वक्त के एहमियत की
कोई कद्र नहीं करते है। अगर हमें अपने जीवन में सफल
बनना है तो हमें अपना कार्य हमेशा वक्त से साथ ही पूर्ण
कर लेना चाहिए क्योंकि जो इंसान समय की कद्र नहीं
करना सम उसकी भी कोई कद्र नहीं करता। इसलिए एक
इंसान को सफल बनने के लिए वक्त और उसकी एहमियत
को समझना जरूरी है।

हिंदी दिवस

भारत की संविधान सभा द्वारा हिंदी को 2 आधिकारिक भाषाओं में से एक के रूप में अपनाने के लिए पूरे भारत में हिंदी दिवस मनाया जाता है।

26 जनवरी, 1950 को संविधान को औपचारिक रूप से स्वीकार किया गया और लागू किया गया।

हिंदी दिवस हजारी प्रसाद द्विवेदी जैसे दिग्गजों के महान प्रयासों को स्वीकार करता है, जिन्होंने हिंदी को आधिकारिक भाषा बनाने के लिए इतना बलिदान दिया। यह स्वतंत्रता के बाद शुरू हुए भाषाई और सांस्कृतिक संघर्षों का समाधान था। हिंदी ने देश को एक मजबूत संघ के रूप में एक साथ जोड़ने में मदद की। इस दिन को कई शिक्षण संस्थानों में बड़े ही सज्जा और उत्साह के साथ मनाया जाता है। छात्र हिंदी में बोलते हैं और हिंदी की विभिन्न प्रतिभाओं के योगदान को स्वीकार करते हैं। हिंदी एक महत्वपूर्ण भाषा है जो देशव्यापी संचार में मदद करती है।

मन पर अधिकार

कहा गया है— मन ही मनुष्य के बंधन और मोक्ष का कारण है। मन चाहे तो क्या नहीं कर सकता ? मन ही व्यक्ति को बुराई कि और ले जाता है और मन ही उसे बुराई कि ओर जाने से रोकता है।

यह अत्यंत अद्भुत सत्य है कि मनुष्य के पास ही मन कि सकती है संकल्पशील रहने पर व्यक्ति कठिन से कठिन पतिस्तिथि में भी पराजय स्वीकार नहीं करता इसलिए कहा गया है।

“ दुःख – सुख सब पर परत है, पौरुष तजहू न मीत। मन के हरे हर है, मन के जीते जीते जी। ”

विद्यार्थीयो के लिए अपने मन को नियंत्रित करना अति आवश्यक है। उन्हें अपने मन पर विश्वास, दृढ़ करना चाहिए। ऐसा करने पर ही वे सन्मार्ग पर सकेंगे। विद्यार्थीयो को अपने मन पर अधिकार अवश्य रखना चाहिए। जब विद्यार्थी अपने मन पर नियंत्रण कर लेगा तो वह अपने दिमाग कि बात सुनेगा, न कि अपने मन की। अतः विद्यार्थीयो को अपने दिमाग की बात सुनकर आगे बढ़ने के प्रयास करना चाहिए। ओर देश के उज्ज्वल भविष्य के स्वप्न को साकार करना चाहिए।

स्त्री है माँ तभी धरा पर आए ईशा, नानक, अल्लाह
और राम
स्त्री हैं परित्याग — जन्मती है बच्चा लेकिन देती है
पिता का नाम
स्त्री हैं अन्नपूर्णा — अन्न के घर कण में फुकती है
ऊर्जा प्राण
स्त्री हैं भुलक्कड — भूल जाती है अपना ही वजूद
अपनी की पहचान

ऐ स्त्री — मत होने दे छिन्न भिन्न अपने बजूद को
उसकी बन जा तू खुद ही पहरेदार बेशक कर कितने
ही सम्पूर्ण तू अपनी पहचान को भी रख बरकरार ।

शिक्षा जब भी आती है
चहरे पर मायूसी लाती है
मन बहुत घबराता है
याद कुछ नहीं आता है
रात — रात भर करते पढाई
प्रश्न उत्तर करते हमारी पिटाई
भौतिक विषय है बड़ा बेवफा
रात को याद करो, सुबह सब सफा
हिंदी हरी भाषा है
पास होने की आशा है

जमाने ने किये है इन पर जुल्म अपार
गर्म हो, चाहे बचपन, जवानी हो या जर ।
भ्रूण हत्या, बाल — विवाह, दहेज, घरेलु हिंसा
नारी को जन — जन ने पिसा ।
लेकिन ये डरी नहीं, ये डटीं रहीं ।
कर्तव्य पथ पर अडिग बनी रही ।

इनके पावन कदमो ने चलाई है अनोखी रीत,
करा रहीं है देश — विदेशों में भारत की जी ।
रणभूमि हो या ओलंपिक का मैदान,
हमेशा कहलाती है ये देश की शान ।

बढ़ती है हर जगह ये देश का गौरव,
तभी टॉप कहते है इन्हे सब रब ।

सदा ही प्रयत्न करती निष्पक्ष,
आगे बढ़ना, बढ़ाना है इनका लक्ष्य ।
अगर चाहते आप सब समाज का उत्थान,
तो आओ मिलकर करे हम सब नारी का सम्मान ।

कम न हो कभी इनका स्वाभिमान,
इन्ही वीरांगनाओ के कारण ही है, हमारा देश महान ।

“निज भाषा उन्नति अहै, सब उन्नति को मूल ।
बिन निज भाषा — ज्ञान के, मिटत न हिय को सूल ॥
विविध कला शिक्षा अमित, ज्ञान अनेक प्रकार ॥”

भावार्थ :—

निज यानि अपनी भाषा से ही उन्नति संभव है, क्योंकि यही सारी उन्नतियां का मूलधार है ।
मातृभाषा के ज्ञान के बिना हृदय की पीड़ा का निवारण संभव नहीं है ।
विभिन्न प्रकार की कलाएँ, असीमित शिक्षा तथा अनेक प्रकार का ज्ञान,
सभी देशो से जरूर लेने चाहिये, परन्तु उनका प्रचार मातृभाषा के द्वारा ही करना चाहिये ।
वर्तमान सरकार के भी ऊपर दिए पंक्तियों संदर्भित करती है ।
जिसमें सरकार ने व्यवस्था की है । कि तकनीकी शिक्षा भी हिंदी व अन्य भारतीय भाषाओ में दी जाएगी ।

शिक्षक और समाज

आज देश में भाषा, क्षेत्र तथा जाति के नाम पर टकराव कि प्रवृत्तियां पनप रहीं हैं। सांप्रदायिक शक्तियां सिर उठा रही हैं, देश के विकास में रोड़े डाल रहे हैं।

शिक्षक का दर्जा समाज में बड़ा ही सम्माननीय था उच्च माना गया है। वह नैतिकता व आदर्शों का प्रेरणास्त्रोत था जीवन मूल्यों के सतत नियामक रूप में भी जाना जाता है। शिक्षक के रूप में एक विनयशील, अनुशासनबद्ध और आदर्श जीवन पर चलने वाले व्यक्ति को मान्य किया गया है तथा माना गया कि उस पर समाज, राष्ट्र तथा मानव जीवन को सभी नैतिक जिम्मेदारियां हैं।

समय के साथ गुरु के आदेश रूप की व्यवस्था मिटने लगी है तथा जीवन के दूसरे क्षेत्रों में कार्यरत लोगो की तरह ही शिक्षक भी बनता चला गया। बनता भी क्यों नहीं, वह भी हाड़ – मांस का पुतला है, उसकी भी जिम्मेदारियां तथा महंताकांक्षाएँ हैं। गिरते जीवन मूल्यों की इस आंधी ने शिक्षक के आदर्श स्वरूप को झिंझोड़ कर रख दिया और आज तो हालत यह है की शिक्षक जगत में भी भ्रष्टता ने अपना घर बना लिया है।

शिक्षक बनते ही व्यक्ति पर नैतिक का एक मुलम्मा अपने आप चढ़ जाता है। उसके द्वारा किया जाने वाला हर कार्य आदर्शों की कसौटी पर तोला जाता है और वह हमेशा एक मानसिक दबाव का जीवन जीता है। ईमानदारी और सच्चाई की प्रतिमूर्ति बनकर जीना पड़ता है, पर समाज का उसके प्रति जो नजरिया है उसमें रात – दिन का बदलाव आ गया है। मान – सम्मान तथा सेवा – भाव का जो दृष्टिकोण पहले शिक्षकों के प्रति हमारा रहा है, वह सर्वथा नए आयामों में बदल गया है। भौतिक सुख – सुविधाएं समाज के दूसरे क्षेत्रों ले लोग तो ले लें, पर शिक्षक अपनी वही फटीचर जिंदगी जीता रहे, यह दोयम दर्जे की मानसिकता हमारे लिए घातक रही है। जहां तक छात्रों के रवैये का सवाल है, वह बिल्कुल बदल गया है।

स्कूल शिक्षक हो या कॉलेज शिक्षक, हर जगह शिक्षक को हो नीचा देखना पद रहा है। छात्रों में बढ़ती अनुशासनहीनता और आए दिन होने वाली हड़ताल, उनके प्रति बढ़ते असंतोष का प्रतीक है।

श्रद्धाभाव तो तनिक नहीं रही, बिना गुरु के ज्ञान नहीं मिल सकता, यह बात असत्य मणि जाने लगी है।

हिंदी दिवस

भारत की संविधान सभा द्वारा हिंदी को 2 आधिकारिक भाषाओं में से एक के रूप में अपनाने के लिए पूरे भारत में हिंदी दिवस मनाया जाता है।

26 जनवरी, 1950 को संविधान को औपचारिक रूप से स्वीकार किया गया और लागू किया गया।

हिंदी दिवस हजारी प्रसाद द्विवेदी जैसे दिग्गजों के महान प्रयासों को स्वीकार करता है, जिन्होंने हिंदी को आधिकारिक भाषा बनाने के लिए इतना बलिदान दिया। यह स्वतंत्रता के बाद शुरू हुए भाषाई और सांस्कृतिक संघर्षों का समाधान था। हिंदी ने देश को एक मजबूत संघ के रूप में एक साथ जोड़ने में मदद की। इस दिन को कई शिक्षण संस्थानों में बड़े ही सज्जों और उत्साह के साथ मनाया जाता है। छात्र हिंदी में बोलते हैं और हिंदी की विभिन्न प्रतिभाओं के योगदान को स्वीकार करते हैं। हिंदी एक महत्वपूर्ण भाषा है जो देशव्यापी संचार में मदद करती है। हिंदी दिवस महत्वपूर्ण है क्योंकि यह भारतीयों के अपनी मातृभाषा बोलने के संघर्ष का प्रतीक है। हर भाषा अनमोल है और इसे संरक्षित और संरक्षित किया जाना चाहिए।

छात्र जीवन की समस्याएँ और उनका समाधान

किसी भी देश का भविष्य उसके छात्र पर निर्भर करता है और छात्र का भविष्य शिक्षक पर। देश को आगे बढ़ाने के लिए हर क्षेत्र (स्पोर्ट्स, विज्ञान, आयुर्वेद, राजनीति इत्यादि) में पारंगत लोग होना चाहिए।

व्यक्ति जो सीखता है या सिखने का इच्छुक है वो छात्र है।

छात्र का जीवन कोरे कागज की तरह होता है। उसके घर, समाज और स्कूल उस कागज को भरने का काम करते हैं। छात्र होने का मतलब सिर्फ किताबी ज्ञान प्राप्त करना नहीं अपितु सही सिद्धांत, आदर्श, नैतिकता और मौलिकता का विकास भी करना है।

आज के माता-पिता बच्चों पर अपने आकांक्षाएँ आशाएँ थोपकर अपने बच्चों के द्वारा पूरी करना चाहते हैं जो वो खुद पूरी नहीं कर पाए। इन सब बातों में बच्चे का असली व्यक्तित्व खो जाता है।

उदाहरण के तौर पर जो बच्चा कॉमर्स में पढ़कर अच्छा मुकाम पा सकता था वो विज्ञान लेकर बिना गहरी रुचि के अध्ययन कर रहा है और एक सामान्य जीवन जी रहा है।

इसका अलावा कई छात्र ऐसे हैं जो पढ़ाई ज्यादा रुचि नहीं लेते परन्तु अन्य कलाओं उदाहरण के लिए स्पोर्ट्स, गाना, डांस, पेंटिंग्स में अच्छे होते हैं परन्तु उनके माता पिताओं के समर्थन के बिना तथा उनकी कलाओं की पहचान के बिना उनकी कला लुप्त हो जाती है।

हमें छात्र के जीवन को विभिन्न प्रकार की बाधाओं से मुक्त करना है तो चार स्तर पर काम करना होगा।

पहला कि बच्चों के माता पिता उनकी स्वतंत्रता या उनकी इच्छाओं का खयाल रखें जो कि उनके जीवन को उत्तम बनाएं। ऐसाखा भी जाता है कि – “अगर आप बच्चों को सही मायने में सीखना चाहते हैं तो उन पर थोपने कि बजह उनको करके दिखाए।”

दूसरा जिस समाज में हम रहते हैं उस समाज का यह दायित्व है कि बच्चों का खयाल रखे।

तीसरा स्कूल तथा शिक्षकों को बच्चों के कल्याण का पूरा करना चाहिए उदाहरण के तौर

स्कूल में क्लास के अलावा अन्य किया कलाप जैसे गेम्स का नियमित रूप से संचालन होना, बेहतरीन पुस्तकालय तथा डिबेट करवाना इत्यादि शिक्षक का दायित्व है बच्चों को न केवल अच्छे तरीके से पढ़ाया जाए अपितु अपने अपने जीवन के अच्छे लम्हों से अब छात्र के अपने खुद के प्रयास कम होने के कारण या उसमें धैर्य था दूरदृष्टि की कमी के कारण नशा तथा बेकार आदतों में पड़ जाते हैं और अपना जीवन बर्बाद कर लेते हैं।

आज के समय में विज्ञान के प्रसार के कारण इंटरनेट तथा मोबाइल में क्रांति का असर छात्र जीवन पर भी नकारात्मक तरीके से पड़ता है। उदाहरण के तौर पर पबजी गेम तथा अन्य मोबाइल गेम के प्रति लत होना। इसमें न सिर्फ वे अपना समय तथा पैसा बर्बाद कर रहे हैं अपितु उत्तेजित कदम उठा कर क्रिमिनल प्रवृत्ति के कामों में भी शामिल हो रहे हैं। छात्रों को प्रेरित करें।

चौथा छात्रों का स्वयं का भी दायित्व है कि वे अपने अंदर अनुशासन, एकाग्रता, धैर्य तथा विनम्रता का विकास करें। अपने आप को अच्छे लोगों के द्वारा स्वयं को प्रेरित रखें तथा अपने माता पिता समाज तथा शिक्षक की सहायता से अपने जीवन का कल्याण करें।

तू युद्ध कर – तू युद्ध कर

माना हालात प्रतिकूल हैं, रास्तों पर बिछे शूल हैं,
रिश्तों पे जम गई धूल है, पर तू खुद अपना अवरोध न बन

तू उठ खुद अपनी राह बना. माना सूरज अँधेरे में खो गया है

पर रात अभी हुई नहीं, यह तो प्रभात की बेला है

तेरे संग है उम्मीदें, किसने कहा तू अकेला है
तू खुद अपना विहान बन, तू खुद अपना विधान बन

सत्य की जीत हीं तेरा लक्ष्य हो, अपने मनु का धीरज,
तू कभी न खोरण छोड़ने वाले होते हैं कायर

तू तो परमवीर है, तू युद्ध कर तू युद्ध कर, इस युद्ध भूमि पर,
तू अपनी विजयगाथा लिख जीतकर के ये जंग,

तू बन जा वीर अमिट तू खुद सर्व सुमर्थ है,
वीरता से जीने का ही कुछ अर्थ है
तू युद्ध कर बस युद्ध कर
